

Computational Chemistry and Materials Modeling

Homework 1, due date is set in Canvas LMS

Give a 10-min presentation of your research project most relevant to the course using the following plan:

- Introduce yourself (1 min)
- Why are you interested in the course (1 min)
- Present most relevant research projects (3-5 min)
- Speculate on possible final project (1-3 min)

Submit a 1-page proposal of your final project.
